#### **TERMS OF USE AND DISCLAIMER**

This report (herein: "Report") presents information and data that was compiled and/or collected by the World Economic Forum (all information and data referred herein as "Data"). Data in this Report is subject to change without notice.

The terms *country* and *nation* as used in this Report do not in all cases refer to a territorial entity that is a state as understood by international law and practice. The terms cover well-defined, geographically self-contained economic areas that may not be states but for which statistical data are maintained on a separate and independent basis.

Although the World Economic Forum takes every reasonable step to ensure that the data thus compiled and/or collected is accurately reflected in this Report, the World Economic Forum, its agents, officers, and employees: (i) provide the Data "as is, as available" and without warranty of any kind, either express or implied, including, without limitation, warranties of merchantability, fitness for a particular purpose and non-infringement; (ii) make no representations, express or implied, as to the accuracy of the Data contained in this Report or its suitability for any particular purpose; (iii) accept no liability for any use of the said Data or reliance placed on it, in particular, for any interpretation, decisions, or actions based on the Data in this Report.

Other parties may have ownership interests in some of the Data contained in this Report. The World Economic Forum and INSEAD in no way represent or warrant that they own or control all rights in all Data, and the World Economic Forum and INSEAD will not be liable to you for any claims brought against you by third parties in connection with your use of any Data.

The World Economic Forum and INSEAD, their agents, officers, and employees do not endorse or in any respect warrant any third-party products or services by virtue of any Data, material, or content referred to or included in this Report.

Users shall not infringe upon the integrity of the Data and in particular shall refrain from any act of alteration of the Data that intentionally affects its nature or accuracy. If the Data is materially transformed by the user, this must be stated explicitly along with the required source citation.

For Data compiled by other parties than the World Economic Forum, as specified in the "Technical Notes and Sources" section of this Report, users must refer to these parties' terms of use, in particular concerning the attribution, distribution, and reproduction of the Data.

When Data for which the World Economic Forum is the source (herein "World Economic Forum Data"), as specified in the "Technical Notes and Sources" section of this Report, is distributed or reproduced, it must appear accurately and be attributed to the World Economic Forum. This source attribution requirement is attached to any use of Data, whether obtained directly from the World Economic Forum or from a user.

Users who make World Economic Forum Data available to other users through any type of distribution or download environment agree to take reasonable efforts to communicate and promote compliance by their end users with these terms.

Users who intend to sell World Economic Forum Data as part of a database or as a standalone product must first obtain the permission from the World Economic Forum ([gcp@weforum.org](mailto:gcp@weforum.org)).
