Network of Global Future Councils
2018-2019 Term

Overview
The World Economic Forum’s Network of Global Future Councils is the world's foremost interdisciplinary knowledge network dedicated to promoting innovative thinking on the future.

Mission
The Network provides thought leadership on key global challenges, and the impact and governance of emerging technologies through:
- Scoping and monitoring trends and developments
- Contextualizing global shifts within the main regional or national frameworks
- Deepening understanding of the drivers and enablers of the Fourth Industrial Revolution and its impact on global systems
- Informing the World Economic Forum’s strategic initiatives by providing analysis and feedback on the direction of existing projects as well as new areas of focus
- Highlighting the implications of these dynamics for decision-makers

Membership
Each council will be comprised of 20 of the most forward-looking experts from the Forum’s global networks. Members can take advantage of the following benefits:
- Collaboration with a global network of experts across disciplines
- Interaction with the Forum’s stakeholder communities, including the chief executive officers of some of the world’s largest corporations, decision-makers from government and international organizations, and leaders from other stakeholder groups
- The Annual Meeting of the Global Future Councils in the United Arab Emirates
- The extensive reach of the Forum’s platforms to access and disseminate ideas, research and analysis
- The opportunity to put ideas into action by being engaged in initiatives, task forces and activities undertaken by the Forum and its partners
- The possibility to engage in global, industry and regional events organized or hosted by the World Economic Forum
Mandate
Members commit to contributing their expertise and knowledge, and exploring key lessons and ideas in the framework of council discussions. They advise on a vision for progress in their area of expertise and provide recommendations on how to achieve it.

Engagement
Council members engage in regular online interactions via the Forum’s TopLink platform, emails and regular virtual meetings (4-6 per year). The council meets in person at the Annual Meeting of the Global Future Councils in Dubai, United Arab Emirates (11-12 November 2018).

Expectations
Members of Global Future Councils are nominated for a one-year period and are encouraged to participate regularly in council activities. Membership will be revoked if a member fails to participate in three consecutive activities of the council (the World Economic Forum may review this decision if the member has been prevented from participating by force majeure).
