

Regional Agenda

World Economic Forum on ASEAN Programme

Kuala Lumpur, Malaysia 1-2 June 2016

Programme Pillars

Driving Sustainable Growth and Social Inclusion

What are the main opportunities for companies, governments and societies to collaborate to advance economic growth and inclusiveness in the region as technological innovation and societal disruption continue to rise?

Mastering the Fourth Industrial Revolution

How will the Fourth Industrial Revolution transform industry sectors and systems of production, and how can nations reshape their economies through digital innovation?

Strengthening Regional Relationships

Following the launch of the ASEAN Economic Community (AEC), what comes next for regional integration and how are regional and global geo-economic forces impacting South-East Asia?

aec agenda

What's Next for the AEC?

The ASEAN Economic Community was launched with great fanfare at the end of 2015 but it remains a work in progress. What comes next for ASEAN and the AEC?

On the agenda:

- Reshaping the ASEAN machinery
- Improving non-tariff barriers, supply chains and value networks
- Priorities for regional integration across the ASEAN bloc

Simultaneous interpretation in Malay and English

This session is on the record.

10.30 - 12.00

Shangri-La Hotel - Creative Disruption Room

growth and the environment

Balancing Rapid Growth with Environmental Sustainability

How can ASEAN craft a development model that enables high growth without sacrificing environmental sustainability?

On the agenda:

- Developing sustainable land use, agriculture and forestry
- Incentivizing investment in sustainable energy and infrastructure
- Increasing better use of materials, resource efficiency and recycling

Wednesday 1 June

11.00 - 12.00

Shangri-La Hotel - Arena Room

digital economy

Reshaping the ASEAN Economy through Digital Innovation

As digital infrastructure is built across ASEAN, how will countries nurture the digital economy to go with it?

On the agenda:

- Advancing policies to support the digital transformation of industries
- Extending access to those who are still unconnected
- Refining pan-regional approaches to data governance and sharing

Simultaneous interpretation in Malay and English

This session is webcast live.

11.00 - 12.00

Shangri-La Hotel - Reflection Room

digital transparency

Digital Governance and Transparency

As digital technologies sweep across ASEAN, how can business, government and society embrace the opportunity to build a more open and accountable system?

On the agenda:

- Reducing corporate malfeasance and public-sector corruption through digital services
- Harnessing digital empowerment of citizens to improve accountability
- Improving government service delivery through blockchain, distributed ledgers and other technologies
- Striking a balance between public security, openness and privacy

Simultaneous interpretation in Malay and English
